Annie is smart, curious, brave, and enterprising, always ready to take part in new adventures. Newly Annie was crafted by the king of the gods Zeus. She wants to save people from a monster attack. She wants to behave lovely so her father can give to the power of fire and fighting just by being a teenage girl.

She wants to become immortal being in mount olympus to stay with her father as long as she likes to enjoy her life. She wants to grow up to be a goddess like Hera the goddess of women's marriage. And her cousin Hercules had the most strength in Ancient Greeces. She found her brother's name Paul. She's happy and hugs each other.

Annie’s younger brother, Paul is a little dwarf. He was brave, smart, silent, and gentle, always following his sister to adventure. Second time, Paul was crafted by Zeus so he found her at the Crag just by being a little boy. He wants to be a strength to pull the sword out like King Arthur. He does so successfully, and everyone bows to him as the new King of England.

So at last the miracle had come to pass in that far off time upon New Year’s Day… and the glorious reign of King Paul has been sitting on his chair next to his sister.

She takes the opportunity that he feels is unnecessary. She told him he's going to sit next to his sister in the throne room.

(They travel through various landscapes before finding a sword in a stone. And so then they walk in the dark, then when he’s afraid and

scared, his sister tell to calm him down so she wouldn't be afraid of shadowing anything. They enter the city of Thebes. They used an iceberg raft to surf to London of england. He looks at the star Constellation.)

Annie: I got shade behind the tree and to cool down when I got too hot. I've got to find the trenches of two rivers which flowed nearby.

And so today is a sunny day, but I wonder why? What have I’ve done? I can’t go back. How? What power do you have to stop this winter? To stop me? I have to go back home.

I hope Annie is coming to rescue us here.

Where’s she?

There’s a river that means I’ve had a great Idea.

Once I got very extremely angry and it was harder to cruise Junk Bellwether for I missed all the Elves.

But a shadow of Bellwether used then tossed the last one at me.

And I shielded myself, but the Freeze Ball caused an explosion and flyer at me and fell down into the dead of the beach.

NARRATOR (Annie): Shortly after, I fainted inside the deep dark cave of the moment. I woke up as I couldn’t stand back up.

I was stuck by 3 boulders but I couldn't move so I struggled up so I couldn't reach a piece of big stone that crushes the rock and my leg is free and I am alone at the riverside.

Did I’ve very beautiful or "I'm not a real ELF!!!”. Of reflection I only had one thing on mind, and that was rescuing my friends I’ll say..

I gasp with dismay at that myself. I look at my torn throat so I can’t lose my voice, I sucks the blizzard back into myself and then it bursts out and accidentally hits the valley. Suddenly, I had a terrifying, angry face when I had a flashback to the past. All the citizens were horrible throats that scarred on the right side of me. Back to the present. I was still scared last time. My tears turned to sobs just as I collapsed to the grass with my head in my hands and rain began to fall. I pull my legs up out of sight.
